About the Staff Advisors to The Regents:

A continuing goal of the UC Regents is to foster two-way communication between UC staff and the Board. In January 2007, The Regents voted unanimously to establish positions for two Staff Advisors to participate in their deliberative process and to provide a staff perspective on matters coming before the Board. One new Staff Advisor is selected each year for a two year term. The Staff Advisors serve as non-voting advisors to designated Regents' committees, and they attend and participate directly in committee and Board meetings throughout their term of service.
