In addition to our medical centers in San Jose and Santa Clara, we’re joining with Watsonville Community Hospital to offer members in Santa Cruz County even more access to emergency services,† labor and delivery, and other hospital services recommended by their doctors.

Kaiser Permanente care in Santa Cruz County and beyond

Members can receive care at any Kaiser Permanente location. Our nearby medical centers in San Jose and Santa Clara and our medical offices in Campbell and Gilroy offer additional access to inpatient care, primary care, specialists, and outpatient procedures.
Community first. Health always.

We provide high-quality, affordable health care services to improve the health of our members and the communities we serve.

Local doctors

The Kaiser Permanente physicians that will be working in Santa Cruz County have been carefully selected. Most are coming from our San Jose and Santa Clara locations and live in the Santa Cruz area. They know Santa Cruz County well, and are looking forward to serving the community they call home. Kaiser Permanente members choose their own doctor, and can change at any time.

Hospital services

Members in Santa Cruz County have a network of hospitals available to them. Local hospital services and inpatient care, including labor and delivery, will be provided by Watsonville Community Hospital and at nearby Kaiser Permanente medical centers in San Jose and Santa Clara.

A respected provider of health care services to Santa Cruz County residents, Watsonville Community Hospital shares Kaiser Permanente’s commitment to providing high-quality health care. It’s conveniently located just off Highway 1 at Airport Blvd. Like at other plan hospitals, Kaiser Permanente physicians will coordinate the care of Kaiser Permanente members.

Specialty services

Members have access to a wide range of specialty services at Kaiser Permanente locations and throughout our extended network. Locally, a variety of specialty doctors will provide services in our new medical offices in Scotts Valley and Watsonville. In addition, telephone appointments and video visits will be available. If a specialty isn’t available within Kaiser Permanente, we partner with other providers to make sure our members get the care they need.

Coordinated, connected care

Kaiser Permanente doctors, nurses, and specialists put members at the center of everything they do. The care team is connected to each other, and to the member, by an electronic health record system – so every member gets personalized care.

From preventive screenings to care for serious conditions, from cutting-edge research to flexible options that let members manage their care on their mobile devices, Kaiser Permanente provides the care members need, when and where they need it. And many of our facilities feature a variety of services under one roof for our members’ convenience.

*Referral required.
†If you reasonably believe you have an emergency medical condition, call 911 or go to the nearest emergency department. An emergency medical condition is a medical or psychiatric condition that requires immediate medical attention to prevent serious jeopardy to your health. For the complete definition of an emergency medical condition, please refer to your Evidence of Coverage.
