

Service & Patient Care Technical Employees

The longer AFSCME waits, the more **YOU LOSE**

Here is how much money average patient care and service employees have missed in **EACH PAYCHECK** because AFSCME rejected UC's settlement offers:

\$118 <u>each</u> paycheck	Respiratory Therapist
\$109 <u>each</u> paycheck	Building Maintenance Worker
\$108 <u>each</u> paycheck	Radiology Technician
\$107 <u>each</u> paycheck	Groundskeeper
\$92 <u>each</u> paycheck	Senior Custodian
\$91 <u>each</u> paycheck	Food Service Worker

You deserve a contract — not more conflict!

Did you know that AFSCME leaders bused people around the state for last week's strike who don't even work at your — or **any** — UC location in an effort to create chaos, inconvenience patients, interfere with employees coming to work, and disrupt operations?

If AFSCME leaders have enough energy and resources for a strike, shouldn't they spend the same amount of effort negotiating a contract for you?

We think **you deserve better.**

As we did for service workers over the summer, we are giving patient care staff 2% pay increases that will be reflected in November paychecks:

- Biweekly employees: Increase will be reflected in your Nov. 28 paycheck
- Monthly employees: Increase will be reflected in your Nov. 30 paycheck
