2: Probationary Evaluations
3: Annual Evaluations
Course Objectives

By the end of this course, you should be able to:

• Describe the ePerformance module of UCPath
• Describe how to create and complete performance criteria
• Describe the business process around probationary evaluations
• Describe the business process around annual evaluations
EPERFORMANCE OVERVIEW
MODULE 1
At the end of this module you should be able to do the following:

- Describe the ePerformance module of UCPath
- Describe the two document types used in ePerformance
- Explain the business process around probationary performance evaluations
- Explain the business process around annual performance evaluations
What is ePerformance?

- ePerformance is the performance management module in UCPath
- ePerformance replaces appraisals.ucsc.edu
- ePerformance will be used for the creation and completion of both annual and probationary performance evaluations
Document Types

• **Probationary Performance Evaluations** are used to evaluate a new employee’s performance during the defined probationary period
  – Completed once, unless there is break in service, usually within the first six months of employment

• **Annual Performance Evaluations** are used to rate an employee’s performance against specific performance criteria and goals
  – Completed once a year
Probationary Evaluations

• ePerformance administrator (in ELR) creates probationary evaluations at the beginning of the probationary period

• Probationary period evaluations should be completed for career and partial-year career employees during their probationary period

• Student, contract, limited, per diem, MSP, and SMG employees do not serve a probationary period

• Academic evaluations are not completed using ePerformance
ePerformance Process Flows: Probationary Evaluations

1. ePerformance Administrator in SHR Creates Probationary Performance Documents
2. Supervisor Defines Criteria
3. Supervisor Completes Probationary Evaluation
4. Supervisor Submits Probationary Evaluation for Approval
5. Approver Approves Probationary Evaluation
6. Supervisor Shares Evaluation with Employee
7. Employee Acknowledges Probationary Evaluation
Probationary evaluation is created by the supervisor.

Divisional Administrator manually creates signature hierarchy in the appraisal system.

Once evaluation is created, daily reminders are sent until completion of evaluation.

System notifies ER Analysts if an Unsatisfactory or Improvement Needed overall rating has been provided by the supervisor, and ER Analyst must review before the evaluation is sent to the employee for signature.

Probationary evaluation is created by the ePerformance administrator in ELR.

UCPath automatically creates the signature relationships between supervisor and employee based on position hierarchy.

System-generated daily reminders will no longer be sent.

Supervisors must inform ER Analyst if they intend to give an overall rating of anything less than a Met Expectations. UCPath will not stop the supervisor from sending a low-scoring evaluation directly to the employee without ER review.

What’s New: Probationary Period Evaluations
Annual Performance Evaluations

• Divisional ePerformance administrators create evaluations for employees within their division at the beginning of the performance cycle
  – Can be done for a group or individual

• Annual evaluations are required for active career and partial-year career employees

• Annual evaluations are required for contract employees only if specified in the contract

• Academic, student, limited, and per diem employees are not required nor expected to participate in the ePerformance process
ePerformance Process Flows: Annual Evaluations

- **Divisional ePerformance Administrator** creates annual performance documents.
- **Supervisor** defines criteria.
- Participants are nominated.
- **Employee** completes self-evaluation.
- **Supervisor** reviews self-evaluations and participant evaluations.
- **Supervisor** completes evaluation.
- **Supervisor** shares evaluation with employee.
- **Employee** acknowledges evaluation.
- **Supervisor** submits evaluation for approval.
- **Approver** approves evaluation.
